

Privacy Policy

How does ReferenceCheck4.com safeguard your customer information?

Privacy and data security are our highest priority. We provide state-of-the-art data security precautions to safeguard your privacy and customer data.

What information do we collect?

When customers order our services we request customer and reference information that is required to conduct reference checks or to process payments. This information will be used for the purpose of providing services to our customers with the exceptions noted below.

To what parties do we disclose personal information?

Access to customer information is restricted to authorized-personnel only. We do not share or release customer information to third parties with the following exceptions: 1) To process payment via Paypal; or 2) In the case of suspected fraud or illegal activities.

Payment options

Our customers have several methods of submitting payment for our services: 1) Credit Card; 2) Paypal Account; 3) Personal Check; or 4) Money Order. We give our customers the option of paying online using credit cards or a Paypal account. To provide the highest level of security to our customers, credit card numbers are processed using Paypal's secure payment gateway. Paypal is the premier credit card processing company on the Internet and encrypts credit card and customer information using the leading industry standard 128-bits Secure Sockets Layer protocol (SSL).

Customers will be taken to Paypal's secure payment gateway to enter their customer and payment information directly into Paypal's site. We do not have access to credit card information and it is NOT stored in company databases.
